

Element Exploration

Over the past three years, GME has offered students a chance to explore a variety of musical instruments (violin and drums) via before school group lessons. The intent of the program has always been (and continues to be) to encourage students to explore their 'element' (see Kenneth Robinson's latest book – Finding Your Element at <http://silkentrobjinson.com/?p=797>). Our PAC-sponsored before and after school programs give our students the opportunity to engage in learning topics outside of the normal GME curriculum. We hope your child participates in as many different experiences as possible in pursuit of finding their element!
